

## 2006 SCA MINIMUM BASE-FINE SUMMARY (MBFS-06)

### SCHEDULE OF MINIMUM BASE-FINE AMOUNTS FOR VIOLATION OFFENSES IN OREGON AS OF JANUARY 1, 2006

**Source:** The Office of the State Court Administrator (OSCA) provides MBFS-06 pursuant to ORS 153.138.

**Effective Date:** January 1, 2006, for offenses committed on and after January 1, 2006. Note, however, that the increased county assessment amounts apply to **judgments entered on or after January 1, 2006.**

**Purpose:** MBFS-06 summarizes **minimum amounts that the citing enforcement officer must enter on the citation in the place designated for "base fine"** when charging a person with a violation-level offense, including those created by city or county ordinance. See ORS 153.008. The base fine is not the maximum fine a court can impose. It is the fine amount the defendant can pay to resolve the violation offense without having to do anything else, unless the court requires the defendant to appear. See ORS 153.061. The court can impose a higher fine, up to the maximum statutory sanction, if the court requires the defendant to appear.

**Effect on Previous Summary:** The immediate previous summary to MBFS-06 is the MBS-3, released August 2003 and effective September 1, 2003. MBFS-06 supersedes all previous base-fine summaries for violations (including former summaries using terms like "bail schedule" or "infractions"). Previous summaries are available online (see below).

**Attached Worksheets:** MBFS-06 includes the worksheets that compute the base fines. **Citing officers do not need the worksheets** to know what to write on a citation. The worksheets show the amounts of the various component monetary obligations in the base fine. Courts can use the worksheets to adjust sanctions and properly disburse moneys. The worksheets show any formula used in a computed field and the statutory maximum and minimum money sanctions that courts may impose for specific violations.

**Law Changes Reflected:** Substantive changes from MBS-3 include the following 2005 legislative changes:

- new mandatory minimum, enhanced fine for driving 100 mph or faster (HB 2792)
- increased county assessment for court security purposes (SB 568) – affecting most base fines. These apply to judgments entered on or after January 1, 2006, even if cited with the lower base-fine amount under MBS-3.

MBFS-06 also updates the previous summary with the following new violations and changes to ORS numbers from the 2003 legislative session:

- references to ORS 811.111, which replaced several classified violations for speeding that were repealed in 2003
- new specific-fine violation for failure to report aggravated animal abuse, ORS 686.990
- new violation with a statutory minimum for refusal to take a breath test, ORS 813.095

**Assessments Reflected:** **As with previous summaries**, the amounts shown as "base fines" in MBFS-06 include the unitary assessment (UA) established by ORS 137.290 (UA) and the county assessment (CA) established by ORS 137.309 (CA). See ORS 153.125. UA and CA do not apply to parking offenses.

**What Base Fines Are Not/Do Not Do:** The base fines listed in MBFS-06

- are **not** security-release amounts, bail, or security-release deposit amounts; they do not affect security-release procedures under ORS 135.265
- do **not** include any moneys for restitution or costs
- do **not** apply to misdemeanors or felonies; Oregon statutory procedures for crimes do not use "base fines"

**Where Available:** MBFS-06 is posted in PDF format on the Oregon Judicial Department's website – [www.ojd.state.or.us](http://www.ojd.state.or.us). Click on **Rules** and then on link to **Schedules**.

<p><b>F. SPECIFIC-FINE VIOLATIONS.</b> Specific-fine violations are punishable by a specific fine as the penalty. That specific fine is set in statute as a specific amount of money. The statute does not designate the offense as a misdemeanor or felony or as a Class A, B, C, or D violation and does not include a term of imprisonment as a penalty. The base-fine amount is the fine amount set by statute plus \$37 for the unitary assessment plus the appropriate county assessment amount under ORS 137.309. See ORS 153.125(3).</p> <p><b>NOTE:</b> See Part E of Section II below for partial listing of specific fine violations and their specific base fines.</p>	<p><b>ON CITATION =</b> Maximum Statutory Fine + \$37 (UA)+ County Assessment for the specific fine amount</p>

The summary sets out these base-fine amounts for the users' convenience. These base-fine amounts apply whether the offender is an individual or corporation; they are not subject to enhancements for other Class A violations. <b>NOTE FOR COURTS: The statutory minimum fine is correspondingly lower than that for other Class A violations.</b></p> <p>Law enforcement officials must list the following amounts on citations; courts cannot establish a base-fine amount for a violation of these offenses other than the amount listed:</p>	<p><b>ON CITATION:</b></p>
<ol style="list-style-type: none"> <li>1. Violations that do not involve taking wildlife, except for violations of the nonresident licensing provisions of ORS 497.102 and 497.121 and the provisions of ORS 496.994</li> </ol>	<p style="text-align: right;">\$75</p>

**SECTION V - CAUTIONS AND CAVEATS about how changes to laws, rules and ordinances can affect base fines.**

1. **New and changing offense levels:** Each session, the legislature may create new violation-level offenses and change existing classification levels. It is not the purpose of this summary to include all new offenses or to track changes in classification levels of existing offenses. After each session, OJD publishes a matrix on its intranet of new offenses and changes in offense classifications as a reference for courts.
2. **Changing base fines and sanction levels by rules and ordinances.** State agency rules and political subdivision rules and ordinances may establish various classes of lower violations (with lower base fines) where a statute provides for a single level of sanction "for any violation of any . . ." rule or ordinance. See ORS 153.022 and 153.025.
3. **Creating offenses by rules and ordinances.** A number of violation-level offenses can be created by state agency rule or by local government ordinance or rule. These offenses are subject to the same formulas used to calculate statutory base fines. See ORS 153.008 and 153.125. **Courts should deduct UA and CA moneys out for these violations before distributing fine moneys.** Although this summary does not list rules or ordinances that adopt a violation-level offense or statutes that grant this authority, Worksheet Table 11 can help courts determine disposition of moneys in these cases.

NOTES AND WORKSHEETS USED FOR MBFS-06

**A. GENERAL.** The MBFS-06 uses a formula set by statute, ORS 153.125 to 153.145, to calculate base-fine amounts (except for fish and wildlife offenses, see Section IV of MBFS-06 above). ORS 153.538 requires that the Office of the State Court Administrator send out information from time to time that reflects the base-fine amounts as determined by the statutory formula.

The base-fine amounts shown in these worksheets and on the attached MBFS-06 are the amount an officer writes on the front of a citation when issuing the citation. They do not necessarily determine the amount that a court will impose as a final sanction or will require if the court requires a security release amount.

Amounts imposed as sanctions on conviction for an offense constitute a single assessment, see ORS 137.293.

**B. LAW CHANGES REFLECTED.** These worksheets show the calculations for the base fine summary under statute that take effect on January 1, 2006, and include changes resulting from 2005 legislation and three changes from 2003 that were not included in the previous version:

- amendments to ORS 137.309 made by section 6, chapter 804, Oregon Laws 2005 ('05 HB 2792)
- amendments to ORS 811.109 made by section 1, chapter 491, Oregon Laws 2005 ('05 SB 568)
- references to ORS 811.111, which replaced several classified violations for speeding that were repealed in 2003 (2003)
- new specific fine violation for failure to report aggravated animal abuse, ORS 686.990 (2003)
- new violation with a statutory minimum for refusal to take a breath test, ORS 813.095 (2003)

**C. THERE ARE NO BASE-FINE AMOUNTS FOR MISDEMEANORS AND FELONIES.** Procedures for misdemeanor- and felony-level offenses are different from those for violation-level offenses. *See generally* ORS chapter 153. A base-fine amount is not a security release amount and cannot be posted as a preliminary appearance for a misdemeanor or felony.

**D. UNITARY ASSESSMENT AMOUNTS USED.** NOTE: **Statutory unitary assessment amounts:**

UNITARY ASSESSMENT (UA) as amended by section 112 of 2003 HB 2759

**INSTRUCTIONS FOR USE OF TABLE.**

- **To determine base-fine amount for offense** - In row 2, fill in column (b). Compute column (c) as instructed in row (1). Look up column (e) in statute cited in row (1). Add columns (c), (d), and (e) to get base fine for column (f).

- **To determine minimum sanction, apply rules listed in column (k).**

- **To determine fine remaining after deducting assessments for minimum sanction** - In row 3, insert amount actually imposed in column (k). Look up CA in statute shown in row 1 of column (m) and insert number in column (m) of chosen row. Deduct amounts in rows (m) and (L) from amount in row (k). Put result in row (n).
