## Search Tips

Tools that can help to perform a successful search include:

**Wildcard** – The Wildcard feature allows you to search for incomplete names and case numbers in the system. For example, searching a partial last name of "slat*" yield results such as "Slate" and "Slatt," "Slattery," and so on. To use the wildcard feature, type a portion of a name or case number, and then type an asterisk (*) at the end.

 *NOTE*: There is a minimum of one character in a first name, three characters in a last name, and four characters in a case number to use the wildcard feature.

**Soundex** – The Soundex feature allows you to search for names that sound similar. For example, if you are unsure of the spelling of the last name, enter the first name and as much as you know to be correct of the last name. To use the Soundex feature, select the "**Use Soundex**" check box when entering the search information.

 *NOTE*: You cannot use the Wildcard feature and the Soundex feature at the same time.

**Names Are Not Case Sensitive**. You can enter first, middle, and last names in uppercase, lowercase, or a combination of both. The search results are the same.

 **HINT:** When looking for a name that could contain a space, hyphen (-), or other separator you might need to conduct more than one search. For instance, if searching for the last name of McDonald but are unsure if there is a space between the 'c' and 'D', you should search twice – once with McDonald and another with Mc Donald. Same for similar separator situations.

**Search results will only display the first 400 results.** To narrow the search: add additional or more specific information; choose a specific location if you are searching 'all locations'; change the 'date range'; or pick a specific 'case category'.

**Date Filed option displays no more than 90 days.** 'On or After' date cannot be prior to today's date; 'On or Before' can be no more than 90 days in advance.
